ABSTRACT

Information from the National Association of Schools of Music annual report provides information concerning: (1) enrollment and degrees awarded; (2) admission and graduation; (3) faculty; (4) administration; (5) operating expenditures; (6) credit-hour production; (7) ratios; (8) undergraduate music scholarships; and (9) new music facilities. Data from the 417 institutions responding to the survey of annual reports are categorized by: (1) type of institution; (2) highest degree offered; (3) type of support; (4) music major enrollment; (5) total enrollment of institution; and (6) region of the country. PREFACE

This booklet is the ninth in a series of annual statistical reports from the National Association of Schools of Music. The information contained herein is based on the 1974-75 annual reports of member institutions of the Association. Of the 428 institutional members of NASM in 1974-75, 417 (97%) submitted annual reports.

Every effort has been made to preserve the confidentiality of institutional reports. Statistical information is reported by support (private or public) and size (number of music major students) of institutions or, in some cases, by highest degree level offered. The number of institutions reporting the various types of information varies because some reports were incomplete. Data from two-year colleges were included where appropriate and where the number of reports from two-year colleges was sufficient to provide valid statistics.

Information from NASM annual reports is preserved in a data base for immediate access. The NASM Reston office can prepare special reports upon request and member institutions are encouraged to avail themselves of this service. Institutional reports are categorized in the data base by the following:

- a) type of institution (two-year college, independent school of music, theological seminary, college/university)
- b) highest degree offered (associate, baccalaureate, masters, doctorate)
- c) type of support (private or public)
- d) music major enrollment
- e) total enrollment of institution
- f) region of the country

Any one or any combination of these categories may be specified when requesting special reports.

This publication, *Music in Higher Education: 1974-75*, is a continuing project. It is our hope that the members of the National Association of Schools of Music will be generous in sending suggestions for modifications or additions in future editions.

Processing of the data for this publication was accomplished by means of the time-sharing service of Dialcom Incorporated.

Samuel Hope
Executive Director

National Association of Schools of Music

ENROLLMENTS AND DEGREES AWARDED

In reporting student enrollment and degrees awarded in specific undergraduate degree programs, the labels *BM*, *MuEd*, and *BA* were used in the interest of brevity. The following definitions apply:

- | | |
|-------------|---|
| <i>BM</i> | Pre-professional undergraduate music majors
(curricula with approximately 2/3 music)
<i>This category does not include music education majors</i> |
| <i>MuEd</i> | All undergraduate music education majors
(curricula leading to music teaching certificate) |
| <i>BA</i> | Undergraduate liberal arts music majors
(curricula with approximately 1/3 music) |

In reporting statistics for master's degrees, music education and music therapy have been combined into one category, all other areas being combined under the label *non-MuEd*.

Doctoral degree programs are labeled according to the areas of study, regardless of specific degree title.
